Why Ireland - For Funds

Ireland is regarded as a key strategic location by the world’s leading players.

Innovative Products & Technology
From traditional ‘long only’ to complex alternative strategies, Ireland offers world class, innovative product solutions catering to the widest spectrum of investment strategies. Ireland was the first regulated jurisdiction to provide a regulatory framework specifically for the alternative investment fund industry. With an unrivalled track record in the alternatives space, the industry remains at the forefront of product innovation, providing opportunities and solutions for this complex sector. The Irish funds and asset management industry recognises that technology is key to responding effectively to increasing regulatory, reporting and efficiency demands and with a total automation rate of 95.9%, Ireland is leading the drive for greater efficiencies through fund processing standardisation.

Regulatory Excellence
The Irish regulatory environment for investment funds is founded on the principles of openness, transparency and investor protection. Ireland has an excellent reputation as a location for robust and efficient regulation. The Central Bank’s rules on counterparty risk and prospectus disclosure are considered prudent and the Irish regulatory framework provides for independent, regulated administration and depository functions.

Thought leadership is the cornerstone on which the industry is built, evidenced by the important contribution Ireland makes to developing international industry practices. The Irish funds and asset management industry plays a key role in leading and responding to regulatory developments at EU and national level.

The Irish Tax Regime
Ireland’s tax regime, as well as being highly efficient, clear and certain, is open, transparent and fully compliant with OECD guidelines and EU law. The Irish framework is legislation-based and does not rely on rulings.

Irish regulated funds are exempt from Irish tax on income and gains derived from their investments and are not subject to any Irish tax on their net asset value. There are additionally no net asset, transfer or capital taxes on the issue, transfer or redemption of units owned by non-Irish resident investors. Other than in respect of certain funds which hold interests in Irish real estate (or particular types of Irish real estate related assets), non-Irish investors are not subject to Irish tax on their investment and do not incur any withholding taxes on payments from the fund.

As provided under EU law, the provision of management, administration and custody services to an Irish regulated fund is exempt from Irish VAT. Other services, such as legal and accounting services, can result in an Irish VAT liability, but may be offset, depending on the fund’s VAT recovery position.
